Tharachand Nagar, Virugambakkam, Chennai, T.N. Ph : 2377 2211 / 2377 3031

Scope & Career Prospects of Various Academic & Professional Programmes

ENGINEERING COURSES

COMPUTERS SCIENCE & ENGINEERING AND INFORMATION TECHNOLOGY

All the developed countries are looking for young and dynamic software/hardware professionals from India apart from various defence research organizations, entertainment industry, Telecommunication and Wireless communication industry, Mobile Networks, Computer Hardware Industries and Banking field all look for Computer Science professionals and Hardware Industries, IT related establishments etc., at global level.

CIVIL ENGINEERING

Aim of this course is to excel in ones professional knowledge and to be ready to meet the challenging industry. The employment prospects for graduates are quite bright. They find positions in various public and private sector organizations engaged in Civil Engineering Construction, Design & Research & Developmental activities.

ELECTRONICS & COMMUNICATION ENGINEERING

Areas, which require Electronic Engineers, include Embedded System Design, Specialized Software like Telecom software Development, Signal processing, Mobile and wireless Communication etc. It also includes Electronic Research and Development Centers, Electronic Research and Development Centers, Electronic Manufacturing Units, Industries Post and Telegraph Development, Space Engineering, Computer Hardware & Software Industries etc.

TEXTILE ENGINEERING

At present there are only few institutions offering this peculiar programme. Textile industry seems to be ever-green field with continuous demand of professionals with this specialization. Major brands like Raymonds, Gwalior Suitings, Woodlands, Lee, Peter England etc. Offers great opportunity for the textile engineers. At present, many textile engineering graduates have wide scope in Medical Textile, Transport Textile, Defence Textile, etc., Areas.

ELECTRICAL & ELECTRONICS ENGINEERING

It includes study of Electronic Circuits and Control Systems and Basic Computer Engineering. This course prepares students for jobs in almost all industrial units that use electrical machines and equipments, as well as in power stations. This branch offers opportunities in electronics as well as software fields. Electricity Board Industries, Control Systems, Computer Software etc.

ELECTRONICS & INSTRUMENTATION ENGINEERING

Instrumentation Engineering is a branch of engineering which deals with the study of modern methods of measuring controlling and monitoring applications using transducers for converting non-electrical qualities into electrical qualities. The Electronics and Instrumentation, Automatic Process Control, Industrial Instrumentation, Optical Instrumentation, Biomedical Instrumentation, Space Instrumentation Engineering (elective).

APPLIED ELECTRONICS

It includes design of Electronic Circuits for domestic and industrial application. It also includes study of instrumentation process control industries, computer system etc., Electronics Research and Development centers, process control industries, Electronic manufacturing units, instrumentation systems, computer etc.

MECHANICAL ENGINEERING

The branch that deals with the design, production and use of machines, Engines, Refrigerators Air condition systems, Turbines, Mechanisms as well as the generation, transmission of heat and mechanical power. It also have a wide scope in Defence & Medical Manufacturing Industries, Public Works Department, Water Works Departments, Manufacturing Units, Automobiles etc.

AERONAUTICAL ENGINEERING

The branch that deals with the design, production and use of air crafts and other related products used in the aviation field. Major concerns like Hindustan Aeronautical Limited (HAL) offers wide openings to these engineers. Not only that, aeronautical engineers are in high demand even in defence area especially in Indian

MEDICAL COURSES

B.D.S. & M.D.S.

Dentistry is concerned with health problems affecting the teeth, gums etc., Diagnosis, treatment and prevention of diseases related to the teeth is the work of the Dentist. Today there is a lot awareness about dental hygiene and the need for healthy, strong teeth. A periodic visit to the dentist for teeth maintenance and repair is not uncommon these days

OTHER COURSES

BUSINESS MANAGEMENT (MBA)

Job opportunities are very high for managers. The business management holds its own importance in every field. This is the programme which prepares the students for managerial skills which is required in almost all technical and non-technical fields with a good scale of pay and other perks.

BIO-TECHNOLOGY

Job opportunities are very high as it is an emerging field. Biotechnologies are less accident-prone. In spite of their high level of intellectual sophistication, it is easier to train people to handle biotechnologies than other technologies. Above all, they are interesting and exciting for all those involved. Process Plant Design, fermentation Technology, design of waste Treatment facilities, immobilized enzyme technology, Bioprocess Development using Recombinant Organisms, Downstream processing Operations, process Automation and Control.

B.PHARM. & D.PHARM.

Pharmacy is the science that deals with drugs. Pharmaceutical companies are involved in the synthesis and manufacture of such medical drugs. With the advance of science and technology, new challenges and opportunities for research are imminent in this field of science and technology

SUCCESS

DIPLOMA IN DENTAL MECHANISM & DIPLOMA IN DENTAL HYGIENE

Dentistry is concerned with health problems affecting the teeth, gums etc.,. Diagnosis, treatment and prevention of diseases related to the teeth is the work of the Dentist. Today there is a lot of awareness about dental hygiene and the need for healthy, strong teeth. A periodic visit to the dentist for teeth maintenance and repair is not uncommon these days

DIPLOMA IN NURSING

Nursing is a profession, which collaborates with other health professions in helping individuals, families and society to prevent illness, to maintain and promote optimum health recovery and rehabilitate from illness or disability and adopt unchangeable limitations and to assist to have a peaceful death in terminal illness. The practice of Nursing is based on the principles drawn from the biological, physical, social and behavioural Sciences. Hence nursing education is broad based, dynamic and adaptive in integrating principles of learning.

FASHION TECHNOLOGY

Job opportunities are very high as it is an emerging field. Areas like Garment Designing for textile industries, Entertainment industries, Advertising etc. offers great openings for the fashion designers.

Glimpses of Impressions

I am very happy to note that Jaya Institutions are doing very well in serving the students and very impressed by the various efforts and initiatives taken by the management and staff members in the field of education with all mutual cooperation and integrity.

- **His Excellency the Governor of Tamil Nadu Shri. Surjit Singh Barnala**

Jaya Educational Trust is really making the best out of it in serving the needy students. I congratulate the staff and management on being involved in this noble profession.

- **Dr. D. Viswanathan, Vice Chancellor, Anna University, Chennai**

I would like to congratulate the management and staff of Jaya Institutions for preparing the future of our Indian Society by cultivating good ethics and behaviour among their students and staff members.

- **Justice T.N. Vallinayagam, Former Judge, High Courts of Madras & Karnataka**

Jaya Group of Institutions have really proved to be a perfect place for successful R&D activities in association with various Industries & Corporate bodies. I am very impressed by the placements of students of Jaya in various private and public sectors at global level.

- **Dr. P. Thangaraj, Managing Director, RMP Infotech, Chennai**

I feel great pleasure to say that Jaya Institutions are the right place for the students for their career and personality development.

- **Dr. G. Manilal, Industrialist & Dist. Chairman, Lions Club International, Chennai**

So far I found only few institutions whose management is seriously concern about the development of students. I am very happy to say that Jaya Group of Colleges are among them.

- **Prof. D. Gregersen, Chairman, Koge Business School, Denmark**

I congratulate Jaya Institutions for developing a good infrastructure for providing all the facilities to the students. Students of Jaya Institutions really have a very bright future.

- **Mr. O. Ellefsen, CEO, Simprentis, New York**

I am very glad after I found that the Engineering Colleges of Jaya group are providing best of the practical implementations of the concepts to the students in their modern Lab Facilities, apart from Books.

- **Mr. Steward Jefferson, Project Manager, Microsoft, USA**

Jaya Colleges are one of those institutions which I have noticed to be very right place for one to get best of knowlegde and career guidance.

- **Dr. Janet D'Souza, H.R. Manager, Intel Corp., Germany**

Once I have visited to Jaya Engineering College and found the environment of the college very impressive. The college is doing far well in order to achieve heights ia Academics.

- **Ms. Katie Rosalin, Project Manager, I.B.M., U.S.A.**

I am proud to say that I am alumus of Jaya and finished my graduation and post graduation in Jaya Engineering College. Now I am working as Manager in Nave Apperals Chennai Pvt. Ltd.
